The Suffolk Foundation is a registered charity dedicated to improving the quality of life for the people of Suffolk.

To that end, we award grants to local charities and voluntary groups that make a genuine difference to the lives of Suffolk people and their communities. By managing funds and donations on behalf of individuals, companies, trust and public agencies, we are the vital link between local donors and local needs – connecting people who care with causes that matter.

At the heart of our approach is a strong belief in the importance of helping communities respond to their local circumstances in their own way. It comes as no surprise, that we regularly witness 'ordinary people achieving extraordinary things'!
