

Felixstowe Partnership Funded PCSO Report for September 2019

SNT Agreed Priorities for September:	Actions and Outcomes
1. Parking – Town Centre, Hamilton Road	Regular patrols and enforcement
2. ASB – Skate Park	Regular patrols, engagement to deter ASB + Crime

Total Parking Offences for Sept: 28

As the summer holidays have ended parking problems have ceased in the seafront areas and returned to normal in and around the town. Regular patrols in the town has kept offences down and opportunities to educate drivers have resulted in less tickets having to be issued. Illegal parking is still an issue outside of Barclays Bank, in part due to the limited signage in the area which is leaving some drivers confused or unaware of the restrictions. Patrols are continuing in the area however drivers are still ignoring the restrictions along the entire stretch of Hamilton Road.

I have been patrolling the skate park on a daily basis during all times the day. Following reports of weapons being found patrols were increased and I conducted a small weapon sweep in the area to ensure that there were no more weapons. Anti-social behaviour has been low and there have been sporadic isolated incidents which have occurred at the skate park. These have been dealt with at the time and users of the park continue to enjoy and use the facilities.

Looking towards October patrols will be further increased during the half-term period to help deter any anti-social behaviour which may occur while the kids are off school.
